

# On the Scene

## Intimate views of Amazonia

Jan. 10  
Elk Creek Cafe, Millheim

Photos by Craig Houtz

This photo exhibition featured portraits of Amazon forest people, plants and wildlife taken by environmentalist and photographer Campbell Plowden. Plowden has visited the jungles of Brazil and Peru for more than 20 years and founded the Center for Amazon Community Ecology, a nonprofit conservation group based in State College. Proceeds from the sale of photos, baskets, bags, jewelry and other items at the reception were used to fund the center's research, community support and education programs.

1. Erin Becker, Doug Fischer and Campbell Plowden
2. Judy Johnsrud, Toni and Nick Brink
3. Dave Ader and Rachael Kane
